THE YELLOW DEATH.

Returning Refugees Stricken in New Orleans--The Plague's Worst Horrors Re-enacted--Gloomy Reports from Many Points--General Grant's Donation.

By Telegraph to the News.

NEW ORLEANS, October 3.—From noon to six o'clock there were nineteen deaths and 88 cases. Up to date since September 29th there have been 75 deaths. Many cases are reported in families who have returned from coast watering places.

The New Orleans Relief Committee having been refused aid by the Howard Association, again appealed to the Secretary of War for rations for the destitute. They state to the Secretary that reports of those who are in position to know, show that the Howards cannot relieve and have not relieved a large part of the destitution in the city.

VICKSBURG, Oct. 3.—Seven deaths to-day.

The telegraph operator at Delta is sick.

A special train for the relief of the sick goes to Smith Station to-night.

NEW YORK, Oct. 3.—A New Orleans special says nearly 15,000 persons who have returned from the Lake Shore watering places, are being prostrated almost as fast as they arrive.

A perfect panic prevails. In the opinion of well-informed observers, the influx has restored the epidemic to its former status.

Over 500 are prostrated in Carrollton and as many more in Gretna and Algiers.

At Barnes Hotel, Mississippi City, those who died were buried uncoffined. Col. Jack Wharton, who is authority for this says: "Had we waited to send to New Orleans for coffins we would have had to carry them out in buckets."

Colonel Carter, Special Agent of the Interior Department, was buried there Wednesday.

The Italian refugees, who two months ago, anterior to the fever, encamped at Camp Parapet, are returning. Many have recently sickened.

At the Board of Health this morning it was announced that the fever is increasing, and will increase so long as absentees from any locality flock into the city.

Thirty-six deaths are reported for the past twenty-four hours, and one hundred new cases.

CHATTANOOGA, Oct. 3.—In the 24 hours ending at 4 P. M., ten new cases are reported. The disease seems to be increasing. Strong northerly winds all day give hopes it will soon diminish or spread out of its old quarters.

NEW YORK, Oct. 3.—U. S. Grant, Jr., called on Mayor Ely to-day, and said he had received instructions from his father to hand the Mayor a check for $500 for the fever sufferers, which direction he then fulfilled.

The entire contributions to-day amount to about $900.

MEMPHIS, Oct. 3.—Last night was quite cool, and indications of a light frost were seen this morning. For the 24 hours ending at 12 o'clock to-day, the undertakers reported 45 deaths. Among those who died since last night are Miss M. H. Clure, a volunteer nurse from Jacksonville, Fla., Dr. B. Peebles, Miss M. S. Hoon, Jno. M. Peabody, Superintendent of the Leath Orphan Asylum, Mrs. J. Darmstadtor and W. Koch. This morning J. G. Watkins, of the Howard supply depot, was taken down. Sheriff J. W. Anderson was stricken down last night. The police last night arrested H. L. Allen, a nurse from Galveston, Texas, on a charge of having attempted to rape Mrs. J. W. McDonald, who died last Thursday. The act was attempted while Mrs. McDonald was ill with the fever.

NEW ORLEANS, Oct. 3.—The death list for the last 24 hours, ending this noon, includes 18 children under seven years of age.

BATON ROUGE, Oct. 3.—There were ten deaths last night, and a large increase of new cases.

We are having July weather, and if it continues we fear the worst consequences.

BILOXI, MISS., Oct. 3.—Twenty new cases. No deaths.

The Peabody Fund—Officers of the Board of Trustees.

By Telegraph to the News.

NEW YORK, Oct. 3.—The Trustees of the Peabody Educational Fund completed their labor to-day. The following officers were elected: President, Robert C. Winthrop, of Massachusetts; First Vice-President, Hamilton Fish; Second Vice-President, Governor Aiken, of South Carolina; Treasurer, Samuel Wetmore, of New York; Secretary, Governor Peabody Russell; Rev. Dr. Sears, General Agent; Executive Counsel, Governor Aiken, Wm. M. Evarts, A. H. H. Stuart, Surgeon General, Barnes and General Taylor.

THAT KIMPTON AGAIN.

Will Return to South Carolina--He is Promised Good Treatment.

By Telegraph to the News.

BOSTON, Oct. 3.—The Journal says it is reported that Kimpton has concluded to go to South Carolina, having been promised good treatment there by Gov. Hampton and other officials.

Sufferers by the Failure of the Glasgow Bank.

By Cable to the News.

LONDON, Oct. 3.—Much sympathy is felt for the shareholders of the Glasgow bank. Much of the stock is held by ladies and gentlemen who, living retired on a moderate competence, now find themselves reduced from circumstances of comfort to absolute poverty. Seven hundred and fifty persons, employed by the bank and its branches, are affected by the failure.

Fire at Palestine, Texas.

By Telegraph to the News.

GALVESTON, Oct. 3.—A Palestine special to the News, says the entire business portion of that town was destroyed by fire. The loss is $115,000. Insurance slight.

Texas Republican State Nominations.

By Telegraph to the News.

GALVESTON, Oct. 3.—A special to the News from Dallas, says the Republican Convention adjourned after making the following nominations. For Governor, A. T. Morton; Lieut.-Governor, Richard Allen; Comptroler, A. Siemerina; Treasurer, S. D. Wood; Commissioner of Land Office, Jacob Kenchler; Attorney General, F. W. Minor. A. M. Cochrane was elected Chairman of the State Central Committee.

A Chief of Police Murdered.

By Telegraph to the News.

NEW YORK, Oct. 3.—A special from Burlington, Iowa, says that while A. C. Bereman, Greenback candidate for Congress, was addressing a meeting at 3 o'clock last evening, Thomas Roper, chief of police, was assassinated, and another man seriously wounded. No cause was assigned for the deed.

Sitting Bull Wounded.

By Telegraph to the News.

NEW YORK, Oct. 3.—A Bismarck, Dakota Territory, special says it is reported at Popular River Agency that Sitting Bull was badly wounded, probably fatally, in a quarrel with some of his chiefs.

Electric Flashes.

FRANKLIN COUNTY.

The Sheriffalty Settled.

Correspondence of the News.

LOUISBURG, Oct. 1.

The question which, since the 1st of August last, has given our county so much trouble, viz: as to who is Sheriff of Franklin, was this morning decided by his Honor Judge Kerr. The case was just this, that the Commissioners, deeming the bond of Sheriff Wynne insufficient, required of him that he strengthen it. He failing to do this, the office was declared vacant, and the Board proceeded to elect a new Sheriff. Mr. E. B. Perry was elected. Mr. Wynne refused to give up the keys. This morning Judge Kerr decided that Mr. E. B. Perry was the Sheriff of this county, and ordered that the keys be delivered to him. So this mixed question has been settled, much to the relief of all. No Court this evening. Turner is on a goods box in the street speaking away. Capt. Davis is here and will manage him all right.

A NATIONAL CONVENTION.

Meets at Goldsboro--Nominates a Negro for Congress.

Special Telegram to the News.

GOLDSBORO, Oct. 3.

The Nationals met here to-day, to nominate a candidate for Congress. Three counties were represented. On the third ballot B. W. Morris, of Craven, was nominated. The vote stood: Warren, 2, and Craven, 1 for Morris; Jones and Craven, 1 for Cicero Green.

Murder Will Out.

Danbury News.

The old saying, "Murder will out," was strangely verified in the bringing to light of the evidence of an awful tragedy near the city of Bridgeport in this State, last week. A man and his little son were fishing in a stream called Cedar Creek, near to the beach. In running about the boy came upon an old shoe to which was attached a stone by a small piece of string. Attempting to put his foot in it he encountered an obstacle and called his father. The man took it to remove the obstruction, when he found that a human foot was in the shoe. Appalled by the sight he immediately returned to the city, leaving the ghastly object where found. He informed the people at once. The matter was kept secret by the authorities, who despatched an officer to the place. On his reaching there he found the tide had covered the beach, and he was obliged to return. The next day he again repaired to the spot and found the shoe and its ghastly contents as described. It was brought to the police office, the leather cut open, and the flesh taken out. It proved to be a piece of corned beef. Subsequent investigation developed the fact that a man named Edwards had been fishing there for crabs and used the corned beef for bait. Wishing to use it another day he put it in an old shoe and attached the stone to prevent its being carried away by the tide. It was a dreadfully narrow escape from the unearthing of an awful tragedy. The policeman and the man who made the discovery are both seriously ill.

American Institute Fair--Interesting to the "Old North" State--Donations for the Coming Fair.

From our New York Correspondent.

NEW YORK, Sept. 28.

The American Institute Fair has advanced far enough to enable a comparison to be made with those of former years. The Fair can be classed as above the average. It is not the largest by any means; there is no rush or overcrowding of exhibits, but what is to be seen there is of the better class, and represents almost every branch of art and industry in the broadest sense. The fine display of show-cases in which the finer goods are displayed, are well scattered around the main portion of the building, instead of being grouped in a bunch, and the names of the prominent business men readily meet the eye of the visitor. The inventors are by no means deficient with their stock of novelties applicable for household business and sanitary purposes, which, as they are worked or explained by the numerous attendants, afford plenty of opportunity for criticism. Some of these consist of a new system for sewer and water-closet ventilation; of refrigerators, as applied to the preservation of perishable food products during transportation from one clime to another; for heating private dwellings and business places; propelling railroad cars by a new steam process; for automatically opening and shutting hatchways connected with elevators; the use of compressed air as a substitute for horse power, and the employment of small machinery in place of the huge and cumbersome piece now used in large manufactories which equal them in their varied application. These, with a thousand other objects, prove interesting to those in search of practical working devices.

INTERESTING TO THE OLD NORTH STATE.

Among the articles now ready for shipment, Mr. Heath called my attention to a few "gems" as he called them. *The model wash board*: For generations the women of our country have been using the same old wash board, overtaxing their strength to get their garments clean, while in most every other department brain has overcome muscle to a great extent. The model wash board is comprised of square rollers instead of ribs or corrugations, and fairly rolls the dirt from the garments. One has simply to lay the garments upon the board with the hand flat upon them, and rub it up and down and your garment will be thoroughly clean in one third of the time now required by any other wash board in existence. We trust this truly useful device will find a conspicuous place in the Donors' Hall, as it is truly the "woman's friend." Several dozen of these wash boards have been donated by E. W. Vanderbilt, Esq., manufacturer, No. 31 Cortlandt street, this city.

"The Travellor." Don't get carried off now, for its only a "New Front Feed Wood Cooking Stove," without exception the most artistic stove we ever examined. This gem of the kitchen is entirely new and novel in its construction, and has many very important advantages over any other wood cook stove we ever examined. The manner of supplying the fire chamber with fuel is perfect. The entire curved front opens the full width of the fire chamber, and a stick of wood 18 to 20 inches long and 5 inches square can be placed into it without a possibility of any ashes or coals escaping therefrom. The fire box of this new stove is entirely different from any other now made, the bottom front on which the wood rests is solid, and a draft is applied to the fuel from the bottom part of the front fire place. This peculiarly constructed fire box is for broiling, is far superior to those ordinarily made as a large body of live coals can be secured for that purpose, and the broiler can be placed over them without having to rake them out into an ash-pit, outside of the fire chamber. Broiling can be done with wood in a better manner in this stove than by any other now in the market. Another feature in this stove will be noticed, the peculiar position and form of the fire box. Vessels will boil quicker and with less fuel, than by the old fashioned cooking stove. The oven in this stove is perfectly splendid, is so constructed that full sized loaves of bread can be baked in front without the top of the loaf coming in contact with fire box bottom. The oven is unusually high and wide at the top, which secures a more perfect equalization of the heat, and consequently a better operation in baking. This splendid stove was donated by Fuller, Warren & Co., No. 236, Water street, New York. We trust the same will be examined by every visitor to our coming fair.

Another stove donated by this enterprising firm is called "The Fifth Avenue Parlor Stove." It is the most original in construction, the most perfect in manufacture, the most elegant in design of any parlor stove out this season. It has a sectional fire pot, revolving top cover and clinkerless grate. This new direct draft stove combines in its construction all of the important features embodied in their celebrated parlor stove "Splendid;" its unique design, elegant ornamentation, and perfection of manufacture, combined with new arrangement of dust flue, and check damper, makes it the most desirable straight draft parlor stove in the market. We commend the visitors' special attention to this new stove, with its plated foot-warming rail.

Lansdell's Patent Steam Syphon Pump, for portable railway pumps, fire pumps, water stations, pumps for breweries, chemical works, &c. This device for raising water by the direct action of steam combines the power of a force, and lifts pump without piston, plunger, valve, or any movable parts, and has nothing about it that can wear out or get out of order. It is the most simple direct, effective and durable of all known contrivances for raising water by steam. Solid bodies of less diameter than the pipes of the Steam syphon pass freely through it without obstructing or interfering with its action. Mud, sand, cinders, fruit, grains, chips or coal, which so certainly choke and disable any pump with valves, pass readily through the Sypon. It can be used to advantage to raise ashes and cinders, and discharge them overboard from the fire-room of a steam vessel, thereby saving the labor and expense of hoisting upon deck and casting them over the side. The capacity of these pumps varies from thirty to eighteen hundred gallons per minute according to the diameter of discharge. The capacity of a two inch pipe is two hundred gallons per minute. Its operation is very simple, steam is turned on through the steam pipe and rushes across the globu ar chamber carring the air before it, thereby exhausting the air. Water to supply its place rises through the suction pipes from atmospheric pressure as in ordinary suction pumps, when the steam jet forces it onward with a velocity proportioned to the pressure in the steam boiler.

This celebrated pump was donated by John S. Long, Esq., iron merchant and manufacturer, No. 4 Fletcher St., New York City. In my next I will give you some more interesting details of other goods now at your New York agency, No. 212 Pearl street, waiting shipment.

By order of the Governor and Commander-in-Chief.

JOHNSTONE JONES,
Adjutant General.

North Carolina peaches took the lead in the Northern markets this year. They were commended not only for their superior quality but for the nicety and care with which they were packed. The peaches shipped from Salem are especially noticed. S. T. Mickey, of that town, led the way, the first shipper of fruit from that county, and was thus the pioneer in a business that has since become one of the most profitable enterprises of that section. The fruit packed by him stood transportation so well that a considerable portion of it was shipped to Montreal, Canada, where he realized very handsome figures for it. A considearble quantity of those shipped realized him six dollars a bushel. He is entitled to the honor of having been the first shipper of fruit from Forsythe county, and having made a success of a business hitherto overlooked. By doing so he has not only made money himself, but made money for others who followed his example.—*Patriot.*

FATHER M'NAMARA'S PISTOL.

A Bullet Fired Through the Car in Which he Escaped After Church.

New York World.

Father McNamara, who recently established a mission in Water street, and is laboring to establish an "Irish Catholic Church, independent of Papal control," preached in the Gospel Tent, at Seventh avenue and Fifty-third street, on Sunday afternoon. Threats of violence having been uttered against him, it was deemed prudent to make application for police protection. Inspector Thorne, Captain Ward and a large force of police were accordingly in attendance to suppress any disorder. Many late comers could not get in, and those who showed a disposition to be turbulent were promptly required to "move on." Sergeant Tuck and Roundsman Crook kept the passageways cleared and preserved perfect order throughout the sermon. But when it was ended and Father McNamara started to leave the tent, a crowd of several hundred men and women who had gathered outside surrounded him and saluted him with yells and hisses and opprobrious epithets. The reverend father looked around him and, drawing a large, six-shooting revolver, said: "Take care, take care, I shall defend myself at all costs." This increased the rage of the crowd, and they pressed close upon him so that he could hardly walk. Captain Ward instructed two of his tallest officers to act as escort to the priest and see him safely home. Amid the derisive yells of the multitude and wild cries of "Yez had better take home;" "Take him in,—— him," and the like, the men placed themselves on either side of him and soon forced a way through the crowd to Fiftieth street. Thence the officers conducted him to a Sixth avenue car at Fiftieth street, and he entered, but could find no seat. The car was crowded with ladies and children, and one of the officers stood on the front platform and one on the rear platform. When the party were safely aboard and the car started some one in the crowd fired at the car, the bullet shattering two windows and passing right through the car. Fortunately no one was hurt, but a gentleman who was standing up in front of his wife very narrowly escaped being hit. The alarm in the car at the sound of the explosion and at the crash of the broken window was intense, the men pushing to and fro and the women screaming.

"Don't be alarmed," exclaimed Father McNamara, "no bullet can harm us. God will protect us."

The car stopped at once and the broken glass was taken from the window. The officers went among the crowd to try and discover who had fired the shot, but at their appearance the crowd dispersed and all was quiet again.

Mr. W. W. Downs, who conducted the music at the Gospel Tent, and who was a witness of the whole affair, said yesterday to a World reporter: "The sermon in the tent was not abusive, and the service was altogether decorous. It was held with the sanction of the Rev. R. S. MacArthur, of the Calvary Baptist Church, who had charge of the Tent, and he was present himself, as were also the Rev. J. D. Hurd, the Rev. William Humpstone, the Rev. M. Chapin and the Rev. Alex. Shaw.

Punished in the End.

San Francisco News Letter.

The best-laid plans, like the best-laid eggs, oft go wrong. A few days ago a tramp, who was sparring his devious way along near Reno, conceived a brilliant idea for raising the wind. He knew that the Wells-Fargo stage would pass along that road in about half an hour, so he took off his coat, tore his shirt and pockets, rolled around in the dust, and finally tied himself, with much difficulty, to a tree. His intention was to relate to the stage passengers how he had been foully dealt with by highwaymen, and have a subscription to repair his losses taken up on the spot. The stage, however, took a short cut by a new road that day, and didn't go by at all. After waiting until dusk, the disgusted tramp concluded to remove his bonds, but before he got the first knot loose, a grizzly came down out of the mountain and pick-nicked off the greater part of his left leg. The same bear was shot by hunters later in the day.

What it Cost a Party of Americans to Spend 155 Days on the Continent.

C. C. Fulton in the Baltimore American.

Many of your readers who have travelled with us on this journey will very naturally have a desire to know at what cost such a European tour can be made, and the length of time we gave to each of the principal cities on the Continent. It may seem to some that our stay in Rome, or Naples, or Florence, or Vienna, was not long enough; but we assure them that we viewed everything of real importance in all those cities. We did not have any idle days, nor did we halt for rest, or stop for rain or bad weather. We were always in motion, going to bed tired and getting up refreshed. On the same day that we entered the ball on the dome of St. Peter's we were down in the bowels of the earth, exploring the catacombs, passing on the route the Coliseum and the ruins of ancient Rome. In the evening we would take a drive in the parks, and at night attend the operas, concerts, or theatres. In short, we were on a five months' frolic, and every moment was precious and enjoyable. We flew over the Continent, singing, rejoicing, and happy, and were everywhere regarded as "the jolly Americans." We never travelled on Sunday, and this was our only day of rest, being all that was desired or required.

We were absent from New York five months and one day, or 155 days in all, which was spent as follows: 10 days on the ocean, 1 day at Liverpool, 4 days in London (first visit), 8 days in Paris (first visit), 1 day at Marseilles, 1 day at Nice, 1 day at Monaco, 1 day at Pisa, 1 day at Genoa, 6 days at Rome, 4 days at Naples, 3 days in Florence, 5 days at Venice, 1 day at Adelsburg (cave), 7 days at Vienna, 3 days at Munich, 1 day at Bingen, 1 day going down the Rhine, 2 days at Cologne, 3 days at Brussels, 33 days at Paris (second visit), 14 days at London (second visit), 3 days at Edinburgh, 2 days at Glasgow, 1 day at Belfast and Giant's Causeway, 3 days at Dublin, 2 days at Killarney (lakes), 2 days at Cork, 23 days in railroad travel, 9 days on the ocean (homeward)—155 days from New York to New York.

It is an admitted fact that the cost of travel in Europe with a party of ladies is much heavier than with all gentlemen. The cost of living in Paris is one third higher than ever before. Still we find in footing up the costs of this extended tour that it amounts to but $946.35 for each of the tourists—about six dollars per day. This includes the ocean passage out and home, and all the expenses of travel, including carriages, guides, fees, and opera, theatres and amusements. We travelled first-class all the time, with Cook's tickets, stopped at the best hotels, made no special efforts to economize, but the most strenuous efforts to prevent being swindled. Three or four young men travelling together ought to make the same tour for $800, and with rigid economy at a still smaller figure. It may be proper to add that the whole of our party were persistent water-drinkers, and although we were everywhere told that water was unhealthy and ice destructive, we stuck to our favorite beverage, with daily improving health and spirits, and entire freedom from Roman and other fevers. We think that our combined weight on returning was fully fifty pounds more than when we embarked, and that the increase was judiciously distributed among those who needed it most.

NOTES.

The President's next excursion will be to the fair at Winchester, Va., which Speaker Randall has also promised to attend.

Carl Schurz's political speeches used to cost the Republican campaign committee $300 per night. Now they cost the country $8,000 a year.

Theodore Tilton, who has just returned from Europe, left his daughters, Alice and Florence, to finish their studies in Germany, the one being devoted to painting and the other to music.

Earl Beaconsfield is reputed a rich man by marriage and otherwise, although before obtaining his pension of $10,000 a year he had to make a declaration of poverty. In the last Domesday book of England he is thus entered as a landed proprietor in the county of Buckingham: "Disraeli, B., Hughenden, 1,004 acres, 3r. 11p."

A darkey was boasting to a grocer of the cheapness of ten pounds of sugar he had purchased at a rival shop. "Let me weigh the package," said the grocer. The darkey assented and it was found two pounds short. The colored gentleman looked perplexed for a moment, and then said: "Guess he didn't cheat dis chile much. While he was gittin' de sugar I stole two pair of shoes."

A witness was testifying that on the morning after the murder he met the defendant at breakfast, and the latter "called the waiter and said"—"Hold on!" exclaimed the attorney for the defence, "I object to what he said." Then followed a legal argument of about an hour and a half on the objection, which was overruled, and the court decided that the witness might state what was said. "Well, go on and state what was said to the waiter," remarked the district attorney, flushed with his legal victory. "Well," replied the witness, "he said, 'Bring me a rare beefsteak and a couple of soft-boiled eggs.'"

Dr. J. G. Holland, talking to the assembled boatmen of Alexandria Bay the other day, said: "I neither drink wine nor give it to my guests. Strong drink is the curse of the country and the age. Sixty thousand men in America every year lie down in the grave of the drunkard. Drink has murdered my best friends, and I hate it. It burdens me with taxes, and I denounce it as a nuisance, on which every honest man should put his heel. I do not ask you to put your heel on the drunkard, but to make the spirit of your guild so strict and pure that no man of your number will dare to trifle with your opinion and sentiments on the subject."

American Inventive Genius.

American inventive genius develops more that is new and practical in mechanism than all Europe combined. The New Englander invents normally; his brain has a bias that way. He mechanizes as an old Greek sculptured, as the Venetian painted, or the modern Italian sang. A school has grown up whose dominant quality, curiously intense, wide-spread, and daring, is mechanical imagination. It is not the professed mechanic or iron-master who invents, any more than the schoolmaster or the farmer. As Tintoretto left his dyeing to become a great painter, the American, be he bank clerk, pedagogue, backwoodsman, or ploughman, turns in his busy brain some problem of his own, suggested by his experience of ill or too slowly done work, and, like Archimedes in his bath, he suddenly finds it and rushes away with his 'Eureka' to some place where he can make his model or get it made—more frequently the former for want of funds to get it made. There was a want the man had felt, and ideal to be worked out, and in his meditation suddenly the thing flashed on him, and is complete in all its essential parts from that moment. The number of inventions, useful and useless, thrown off in this way in the course of a year, of which only a small proportion attain the realization of the Patent Office, can only be imagined by those who have lived among New-Englanders at home.

Strange Pets.

Mrs. Lincoln, of Boston, has two tame lions—great, tawny, handsome beasts, about two years and a half old. She took them when they were first born, and has brought them up as household pets. Until very lately they were in her parlor, and went about the house as freely as a dog would, but the city authorities requested that they should be kept under some restraint. They now live in a room back of the parlor, and opening into it by a grated door, which is said to be strong, but which is often open, as Mrs. Lincoln goes in and out of the room, playing with the lions, petting them and making them do their tricks. "When I saw them," says a correspondent of the Worcester Spy, "Willy," as the lion was called, was eating his breakfast, and did not like to be disturbed. However, at Mrs. Lincoln's command, he stretched up on his hind paws, to show how big he was, rolled over, and did other infantile tricks. Mrs. Lincoln then opened the low parlor window and and called pleasantly: "Martha, little girl, come here," and up trotted the lioness, who was taking her morning walk in the narrow yard. Both lions kiss Mrs. Lincoln, and she has no fear of them. They seem so thoroughly tame, in spite of their hearty diet of raw meat, that she cannot understand how any visitor can be afraid.

THE Radical press is lavishing praise on the Hon. J. H. Slater, recently elected Senator from Oregon, because he is in favor of "honest money." We know of no Democrat who is in favor of dishonest money. As regards finances, Senator Slater's views are in entire harmony with those of Senator Thurman and the masses of the Democratic party.

Result of a Generous Contribution.

Some three weeks ago Messrs Landrum & Litchfield donated several hundred dollars worth of their celebrated Seven Springs Alum Mass for the benefit of the Yellow Fever sufferers, and have just received the following letter from the President of the Howard Association at Holly Springs, Mississippi:

HOLLY SPRINGS, MISS.,
Sept. 16, 1878.

Messrs. Landrum & Litchfield, Abingdon, Va.:

GENTLEMEN:—Please accept our thanks for your case of Seven Springs "Iron and Alum Mass," received some days ago. Quite a number of our citizens are using it with good results.

Respectfully,
W. J. L. HOLLAND,
President Howard Association.

At last it seems that a remedy is discovered to check this fearful disease. Messrs. Landrum & Litchfield are shipping large quantities of this valuable medicine to the South.

Sale and Board Stable.

Having this day sold our Livery and Omnibus line to O'Kelley & Baker, we will give our personal attention to the sale of horses and mules, and will keep a first class boarding stable. Our stables will be open day and night, and especial attention given to transcient and monthly boarders.

Thankful for the patronage so liberally bestowed heretofore, we trust by strict attention, to merit a continuance of the same in our sale and boarding stables.

GEO. W. WYNNE & CO.

Mr. W. S. Dodd will sell at auction this morning, in front of the court house door, a nice lot of open and top Buggies, Wagons, &c. We would advise all those in need of such to attend this sale, which will take place at 10 o'clock. They guarantee all work, but we are satisfied from our knowledge of workmanship that it will stand for itself. Stronach & Allcott have a large lot of them on sale at their warehouse. Don't fail to get bargains this morning. *

The Dutchman's exclamation of assent is made by all with proper taste as to clothing, after being told, as they look through his elegant establishment, that Weikel keeps the choicest stock in the State. If all the other tailors were dead, Weikel would still live, a magnificent example of the "Survival of the Fittist." *

The most misanthropic can replace unpleasant thoughts with light and easy ones by indulging in a quiet whiff of one of those deliciously pure cigars of Mendel's. Store opposite Post Office. *

An Inside View

Will convince all that Messrs. Latta and Myatt have decidedly one of the largest stocks of groceries brought to this city. They have excellent gilt edge butter, cream cheese, crackers and cakes of every description, Patapsco, Orange Grove, Oak city, and a number one article of North Carolina flour, always on hand. Go to see them when you want a standard flour.

CONSIGNED.

150 pounds nice honey and 100 large spring chickens at Latta and Myatt's Call to see them this morning if you you want something cheap. *

An Astonishing Fact.

A large proportion of the American people are to-day dying from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it ought to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of druggists and your friends, and try one bottle of Green's August Flower. Your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can buy a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all druggists on the Western Continent. aug. 6—tow-d&w.

Cotton.

The receipts of cotton in Raleigh are rapidly increasing, and their growth is due to the energy and judgement exercised by commission merchants. Messrs A. C Sanders & Co. have been in the commission business, and are known as prompt and reliable commission merchants, who do only a commission business. Their charges are as low as any.

Massachusetts and Kimpton---Rice and Hampton.

The reply of Gov. Rice, of Massachusetts, to the scathing and indignant letter of Gov. Hampton, with reference to the refusal of the latter to surrender the Radical rogue, Kimpton, is a paltry and contemptible effusion. We are not surprised that Gov. Rice declines to allow Gov. Hampton's letter a place in the archives of his State, administering, as it does, so pungent and merited a rebuke to the low partisanship which impelled him to interpose a shield to protect a thief from the penalties of violated law. Whether it has a place in the archives of Massachusetts, or not, it will still survive as a just and stinging reprimand of official connivance in crime.

We never had, in the olden time, any sympathy with the peculiar theories that distinguished South Carolina politics. Gov. Hampton, himself, had no affiliation with the dominant school in his State. Certainly, however, it lies not in the mouth of Massachusetts, through the Executive of that Commonwealth, to arraign, by implication or otherwise, *any* State of this Union for "non-observance of Constitutional or statutory obligations." A State which persistently defied and resisted the enforcement of the fugitive slave-law, and one of whose Representatives was the first to arrow a purpose and desire for Disunion on the floor of Congress, is the last source from which such insinuations should proceed.

Apropos to this subject, the following observations from the New York Tribune come well in place. It says: "Gov. Rice will certainly not take it amiss if he is reminded that he has a precedent for his action as far south as Florida. In the days when the carpet-baggers flourished and fattened upon the spoils of office in North Carolina, Messrs. Littlefield and Swepson made themselves notorious by their extensive operations as railroad speculators and lobbyists. When the bubble burst and the State found that it had been swindled out of some millions of dollars and had only a partially completed line of road, Littlefield was indicted in one of the State courts and was found in Florida teaching the people of that State the mysteries of railroad financiering. The Governor of Florida refused to surrender Littlefield on the requisition of the Governor of North Carolina. A year or two later Littlefield had fled from Florida for reasons similar to those which caused him to leave North Carolina, and a requisition was sent out for him with no better success than before. If Florida had surrendered him to North Carolina in the first place, *her* Governor would probably have known where to find him."

We rather incline to the belief that the Tribune, in these reminiscences, is ignorant or oblivious of the fact that the Governor of Florida, at the time mentioned, was a Radical, and, perhaps, a carpet-bagger. Possibly that paper meant to twit the South with a precedent sustentatory of Gov. Rice. If so, it is most unfortunate in its reference, for the reason stated, that the Governor of Florida was actuated by the same motive, in disregarding law and inter-State comity, as the Governor of Massachusetts was, viz: The desire to rescue a Radical thief from the clutches of justice.

Gubernatorial Complications in Maine.

The Gubernatorial situation in Maine is very peculiar. There having been no election by the people, according to the laws of that State the House must select two from the four candidates who received the highest number of popular votes, and from these two the Senate must select the Governor. The House is divided as follows :

Republicans	65
Nationals	57
Democrats	27
Hard Money Democrats nominated by Republicans	2
Total	151

The Senate is largely Repnblican, and now the great question is, upon what two names will the House unite? The four candidates from whom the selection has to be made, are Connor, Republican, Smith, National, Garcelon, Democrat, and one Col. Frederick Robie, an Independent Republican, who received a few votes on the day of the election.

A coalition between the Nationals and Republicans is regarded as entirely impossible, inasmuch as they vary so greatly on the financial question, and of course there can be no coalition between the Republicans and the Democrats. Inasmuch, however, as the latter represent the moderate and conservative views on the financial question, there may be effected a coalition between them and the Nationals. Then, as the Radical ultra hard money Senate would have to choose between a Greenbacker, pure and simple, and a Democrat, it may be that they would of the two prefer the latter as being a conservative.

Hence it may result that we shall see that most wonderful of all wonderful things, a Democratic Governor for "the State of *Blaine*." At any rate, the Democrats hold the balance of power, and can pretty well decide the election. Yet, the Radicals want to know what in the world the Democrats can see in the result of the Maine election over which to be exultant!

The Work Before Us!

Ordinarily, it is a difficult task, in what is called "the off year in politics," and at a time when Presidential or local issues are not ostensibly involved, to arouse any considerable degree of interest or enthusiasm in a Congressional canvass. We have good reason for believing, however, that the Democrats of North Carolina, in the various Districts, are becoming fully alive to the vital importance of the contest before us. It is *not* one of the mere platitudes of a campaign article, but a sober and earnest verity, when we say that the results of the November elections involve consequences of the most momentous character.

They are to decide whether the work of financial reform, inaugurated by the Democratic party, is to be prosecuted to its consummation, or whether the people are to be remitted to the oppressive rule of corporate wealth and moneyed oligarchism.

They are to determine whether the efforts at retrenchment and economy in government expenditures are to continue, or whether we are to fall back to the era of prodigal extravagance and of corruption.

They are to show whether the people, (of the South, especially,) who have risen in their might against the aggressions and encroachments of Federal power, are resolved to press the victory of popular rights over centralized despotism, or whether they are ready to submit again to the yoke of oppression.

They are to decide, virtually and finally, whether GRANTISM, with its frightful record of imperial encroachment, of spoliation and of corruption, is to be again fastened upon the country, or not.

Democrats of North Carolina! We invoke you to a solemn consideration and an earnest discharge of the duties before you.

WE DESIRE to say a word to the people of this Congressional District, without reference to their partisan predilections or prejudices. We hold the opinion, of which we should regret to be disabused, that the masses, white and black, would prefer to be represented, in official positions, by men of dignity, character and talent.

As matters stand, at present, we have really but two candidates for Congress in this District, for no one has any idea that Judge Reade will allow his name to be used in the contest. He is now out of the State, and, prior to his leaving, most positively refused to accept a nomination or to be considered in that connection.

JOSEPH J. DAVIS has, indeed, been a *representative* of his constituency. He has guarded their interests with unwearying fidelity, and, while loyal to the party that elected him on *all questions of political principle*, he has known *no* party in his attention to the personal or local concerns of the people. There are many Republicans in this District who can testify to the diligence and earnestness with which he sought to accomplish objects in which they were personally interested. There is no man in the District who has aught to say against Mr. Davis as a high-toned, honorable gentleman, worthy of the high regard in which he is held and of the position he has attained in our National councils.

We do not wish to be understood as making an appeal for Republican votes for Mr. Davis, on any other ground than his exalted private and public character and reputation, but, *as* matters now stand in this District, we will do decent Republicans the justice to believe that they must prefer him, for the reasons stated, over every existing element of opposition.

CONGRESSMAN BLAIR, of New Hampshire, has been to Washington for the sinews of political warfare, and has been sent sorrowing away with the word that the Radical campaign committee's bag had collapsed. He is reported as saying that money must be had; that voters in his State *had grown to expect it*, and that the result of the election depended on the extent to which one side or the other purchased their support. This is not a new story about New Hampshire, and the New England States, generally, but it is a scandalous and disgraceful one none the less. The debauchery of suffrage by bribery is a crime against the liberties of the people, and no man or party can afford to be engaged in it. If Mr. Blair wanted cash for honest uses, that is his business and the business of his political friends; but if he called for it in order to buy votes he deserves much worse than the disappointment of refusal.

And yet Mr. Blair, and the men of whom he is a type, are ever ready to prate about the "bribery" or "intimidation" of negroes in the South!

"THE "INTERVIEWING" business is a consummate fraud. We alluded, a day or two since, to certain reported utterances of Gov. Vance, which, we felt satisfied, had no foundation in fact. The Washington Post, very recently, had a reported interview, also, with Gen. J. M. Leach, communicated by a New York correspondent, in which he was credited with the most crude and contradictory opinions. The Charlotte Observer is thus authorized to dispose of the affair:

"We are gratified to be authorized to say that the recent interview and conversation alluded to, as having taken place at the St. Nicholas, in New York, is *wholly imaginary*, and never really occurred; that in fact Gen. Leach has not been in N. Y. since last February, and then on professional business alone, having said nothing about politics or parties while there. He authorizes us to say further that he agrees in the main with us in the views we expressed in commenting editorially upon the alleged interview in New York, adding that the opinions ascribed to him therein have never been expressed at any time, anywhere, for the obvious reason that he never entertained them."

LET no true Democrat allow any Greenback theory to swerve him from his true line of duty in supporting the Democratic ticket. All the most desirable and essential reforms that can be accomplished in this direction can and must be accomplished by and through the Democratic party,—and it alone.

PRESIDENT HAYES continues his junketing. If he does not get well acquainted with the people of the United States, it will not be his fault. He is taking in the whole country by degrees. Indeed, it was "taken in" by him about the time that he became President *de facto*.

INASMUCH as Mrs. Jenks declared that Ben Butler was "perfectly lovely," and Mr. Butler described her as "a h—ll of a woman," it looks as if it would be necessary for the two to "pool their issues" before the Jenks goes on the stump for Old Cockeye.

WE OBSERVE some criticism upon the fact that Senator David Davis, of Illinois, is silent on the financial question. People should reflect that it takes a man of five hundred pounds weight some time to make up his mind.

VEGETINE.
FOR
EPILEPSY.

BARABOO, May 15, 1877.

H. R. STEVENS:
Dear Sir,—My husband has had Epilepsy for the past fifteen years. The past winter his blood seemed to be in a bad condition, and seeing the good results from the use of Vegetine in others, felt anxious to try it. Has taken some six bottles, and the result has been, that he has had only ten fits in three months past; whereas, he was accustomed to having as many in two days at his worst, an effect that he did not expect. Am very anxious to have him continue the use some longer, and write you what terms, or what reduction you would make and send me one dozen bottles.
Very respectfully,
MRS. A. C. COLE,
Baraboo, Sauk Co., Wis.

Vegetine thoroughly eradicates every kind of humor, and restores the entire system to a healthy condition.

Vegetine.

ST. VINCENT SCHOOL, TROY, N. Oct. 5, 1871.

DR STEVENS:
Dear Sir,—We are truly grateful for your generous donation of Vegetine received last evening. A lady has been using it here, with much benefit to herself, who, for years, has been pronounced "broken down," "worn out," &c. Frequently she was disturbed in her sleep by a violent nervous twitching of a foot, or the face, or the whole body. By taking this Vegetine, she is enabled to sleep quietly, and her general health seems much improved, though she has a complication of chronic diseases to contend with. May God bless you for your charity to the orphans.
Respectfully and gratefully,
SISTERS OF CHARITY.

Harassing Dreams—An unnatural excitement of the brain and nervous system is the direct cause of sleeplessness, as also of harassing nocturnal dreams. Vegetine has a peculiarly soothing effect in all such cases, when taken just before going to bed.

For all Ladies
WHO ARE SUFFERERS.

CINCINNATI, March 28, 1877.

MR. STEVENS:—
Dear Sir,—I have taken several bottles of your Vegetine for Female Weakness, and in justice to the medicine, and to all ladies who are sufferers from such complaints, I will recommend the Vegetine. I must say it has helped me very much: indeed, it is invaluable for such complaints.
MARY E. MEREDITH,
160 Eastern Avenue.

FEMALE WEAKNESS—Vegetine acts directly upon the causes of these complaints. It invigorates and strengthens the whole system, acts upon the secretive organs, allays inflammation, cleanses and cures ulceration, cures constipation, regulates the bowels; headache and pains in the back cease; in fact, there is no disease or complaint where the Vegetine gives so quick relief, and is so effective in its cure, as in what is termed Female Weakness. It has never failed in one instance.

HOME REMEDY.

THE MOST WONDERFUL DISCOVERY OF THE AGE!

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier, it is everywhere giving perfect satisfaction. While my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood, and probably for other diseases.

FAYETTEVILLE, N, C., Aug. 12, 1878.

MRS. JOE PERSON,

Dear Madam, I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the Doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine appeared to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast, until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this. rarely feel it, and then not enough to speak of it. I would recommend any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years, and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,
JOHN BUIE, Box 141.

CIRCULAR SAW MILL. LEVER FEED CUTTER

Hege's Improved Circular Saw Mill, is no new a dnuntried saw mill, but is one that is well and favorably known in many sections, and wherever it is introduced it is fast superceeding all others. It is simple in construction, yet reliable in operation, and is sold for less than any other first class saw mill. Send for descriptive circular

Lever Feed Cutter,

something entirely new and novel in the feed cutter line. With this cutter the feed in cut off diagonally, instead of square across, as is the case with all other cutters, at the same time our cutter has a draw cut, acting exactly on the same principle that a knife is used is cutting off a stick, consequently with our Diagonal Feed Cutter we can cut more feed with less labor in a given time than any other cutter costing twice as much.

Price reduced to $8.00. Send for circular. Liberal discount to agents. No goods consigned. Manufactured by the Salem Agricultural Works, Salem, N. C.

LOCAL BRIEFS.

——Governor Vance is expected to be in the city to-day.

——Charlotte received 540 bales of cotton on Wednesday.

——It is hoped a good rain will fall before Fair week, as the dust is fast becoming a source of discomfort.

——There are over 1,300 pupils in the various schools here, it is stated. These are divided among seventeen schools.

——A gang of street hands are at work on West Morgan street, leveling the roadway and clearing the gutters.

——Complaints are made of the bad condition of Halifax street, near Jones. The Street Commissioner should look at it.

——While the hands were tearing down the old post office yesterday, an entomologist secured 83 varieties of fleas and bugs.

——Letters are held at the postoffice, addressed to Silas Green, Tuskrora, N. C., no such office, and to Gwathmey & Co., New York, unstamped.

——The old post office is being moved to a place near Tupper's church, and will be used as a lodge by the colored masons. It is almost all torn down.

——The nominee of the late Republican mass convention in this city, has not, as yet, signified his acceptance of the nomination, but there is said to be no doubt of his making the run.

——Any persons who are called on to aid the R. L. I. band in getting their handsome uniforms will do both the company, and the city, a service, for a well dressed band is needed.

——Ill bred people cause complaints daily by spitting on the floor and woodwork of the post office. All such beastly habits should be promptly stopped, by the arrest of every person caught in the act of committing such a wanton outrage against decency.

Personal.

Robert M. Furman, Esq., the genial, whole-souled editor of the Asheville Citizen, honored the News with a call yesterday.

For the Penitentiary.

Deputy Sheriff E. A. Cherry, of Pitt county, yesterday delivered to the authorities at the State's Prison, Lewis Johnson, colored, convicted of larceny and sentened to imprisonment for the term of five years.

Convict Discharged.

There will be discharged from the State Penitentiary to-day Frances Green, colored, convicted in Craven county, of larceny, and sentenced to the Penitentary, October 1877. She is about 21 years old, 5 feet 6 inches high, and weighed, when admitted, 135 pounds.

The Post Office Sewer.

Work on the great trench was begun yesterday, permission having been obtained from the county commissioners and Maj. M. A. Bledsoe. The sewer will empty into Rocky Branch, on the land of Maj. Bledsoe. The work will be carried on rapidly, and the foreman will hasten its completion in all possible ways.

Silver Dollars.

Mexican dollars have descended to a yet lower plane of public value. They passed for a while at 90 cents, but now they do not pass on some railroads for more than 85 cents. The new dollar, too, though at par, is looked at with some suspicion, but bears the test admirably well, and the cheeky female whose portrait it bears always comes up smiling.

The Sleep-Walking Accident.

The name of the pupil who fell from the window at the Deaf and Dumb Asylum on Wednesday, is Richard Banning. There are now 173 pupils at this Institute, and the name of the lad who fell is given to prevent uneasiness on the part of parents of scholars attending there. The boy suffered but slight injury from his fall, and is now walking about.

Military Gossip.

That fine new command, the Winston Light Infantry, is ready for the Fair, having completed equipment, by the purchase of officers' swords and handsome plumes.

The unform of the band of the Raleigh Light Infantry is very attractive. It is a navy blue frock coat, trimmed with bars of gold braid, pants of same color, with gold cord, and flat navy caps, gold trimmed.

Criminal Matters.

Ned Bryant, colored, was lodged in jail for the space of three hours yesterday, by Justice Whitaker, having been guilty of contempt of court in the office of that Magistrate.

Under a warrant from Justice Womack, of Chatham, Sheriff Nowell yesterday arrested Jane Sutton, colored, who stands charged with the theft of $100 from Rev. P. B. Sutton, of Pittsboro. She was lodged in jail and will be taken to Pittsboro to-day.

Two new Battalions have been formed, the first composed of the following companies:

Company A.—Winston Light Infantry.
Company B.—Roanoke Light Infantry.
Company C.—Albemarle Guards.
Company D.—Durham Light Infantry.
Company E.—Jarvis' Light Infantry.
Company F.—Anderson Rifles.

The Second is composed of:

Company A.—Cleaveland Guards.
Company B.—Southern Stars.
Company C.—Iredell Blues.
Company D.—Lamb Light Infantry.

THE TROOPS AT THE FAIR.

Courtesy of Railway and Steamship Officials--Free Transportation Given----Magnificent Display Expected.

It is a source of congratulation to the people of the State that the officers of the railway and steamship lines have generously furnished transportation to the troops of the State Guard, for the grand Encampment during Fair week. This public spirited and kindly action on the part of the gentlemen in charge of the various lines will be truly and fully appreciated by all North Carolinians, who naturally take pride in such fitting displays of the finely uniformed, armed and equipped volunteers in the service of the State. The names of the patriotic gentlemen to whom all are so much indebted for this timely kindness, are:

President A. S. Buford and Superintendent A. B. Andrews, of the North Carolina Division of the Richmond and Danville Railroad; President John M. Robinson and Superintendent J. C. Winder, of the Raleigh and Augusta and Raleigh and Gaston Railroads; Hon. R. R. Bridgers, General Manager of the Wilmington and Weldon Railroad; President C. H. Roberts and General Superintendent V. Q. Johnson, of the Carolina Central Railway; President L. C. Jones, of the Western Railroad of N. C.; President John Hughes, of the Atlantic and N. C. Railroad; Capt. Thomas H. Webb, Superintendent, Norfolk, Va., and Messrs. John Myers' Sons, Agents, Washington, N. C., of the Old Dominion Steamship Company, and John H. Bogart, Esq., Franklin, Va., Superintendent of the Albemarle Steam Navigation Company.

It is earnestly hoped that the display may be such as to present a fine spectacle before the distinguished guest of the State, on that occasion, Hon. Allen G. Thurman. That the command may present such appearance it is the earnest wish of all, that merchants and others whose employees are members of the Guard, will permit such to give a few days service to their State and perfect themselves in those military duties so necessary, and which in time of need will add ten-fold to their efficiency.

W. W. Jones, Esq.

In a private letter to friends here this gentleman states that, owing to ill health, and appreciating the delightful climate of the west, which proves very beneficial to him, he will hereafter make Hendersonville his home. It is a cause of regret that Raleigh should thus lose so good a citizen as Mr. Jones, and the people of his new abiding place are congratulated on the acquisition. Mr. Jones is a gentleman of refined culture, a well-read and careful lawyer, a genial companion, and, above all, one possessing the nicest sense of honor and appreciation of the duties and relations between man and man. He was for a long time Chairman of the Wake county Democratic Executive Committee, and proved a most efficient officer. The best wishes of the people here go with him to his new home.

The State Museums.

Of the people here how many have ever visited either of the museums in the Briggs building, which contain so much that is rare and interesting as well as useful to those who intelligently inspect their varied contents, collected after so much trouble and so skillfully arranged? People will cheerfully pay a fee to see a miserable side-show, but how few look at, or, seeing, know anything about the instructive exhibits in the Agricultural and Geological Museums. Yet the courteous officers of these continue to prosecute their work of collection, assured that no place is more quickly visited or appreciated by strangers from other States or places. Every day new objects of curiosity or value are received. Yesterday a quantity of Chinese products were unpacked in the Geological Museum, which already contained a small, but attractive, collection of articles from the Flowery Kingdom. To the Agricultural Museum there was sent the tail and sting of the largest stingray ever caught on the coast. This peculiar fish has a habit of laying in the shallow water on the sand, which it has the power of exactly imitating in color, and if one steps upon the lurking devil, quicker than thought the whip-like tail, with its poisonous tip, is thrown into the object, producing a peculiar wound, often dangerous.

Diphtheria.

From many sections of the State, but principally from the Western counties, come descriptions of the ravages of this dreaded disease, among old and young alike. It has not been prevalent in Wake county, but has broken out with some virulence in a portion of it. News now comes that the disease prevails to an alarming extent in the neighborhood of Fletcher's Chapel and Barbee's store. Several children have died, while numbers are dangerously ill. From some cause the effect of the disease in cities is very slight as compared with that in the rural districts. In Raleigh, during many years, there have not been a sufficient number of cases of the disease to make it worthy of mention. Nor has it been prevalent in any of the large towns. This simple, true statement is made to allay any fears on the part of parents as to the probability of the disease being brought in from the country, for such need not exist.

For the Sufferers.

John A. Maynard sent the Executive office yesterday, $12.60, subscribed by the citizens of Morrisville, this county,

Col. A. C. McAllister sent $30, contributed by citizens of Asheboro, at a public meeting on Sunday, and from mite boxes, $2.47.

Grand Secretary J. J. Litchford, yesterday received from Weldon Lodge, No. 1, the sum of $25, for relief. Also $12.75 from Camden Lodge, No. 80.

D. Worth, of Company Shops, sent $2.

The Alamance Gleaner says that Misses Cora and Daisy Holt, daughters of Col. T. M. Holt, and Miss Dora Williamson, constituted themselves a committee to raise help for the yellow fever sufferers. They went to work industriously, and in a few days they raised one hundred dollars, which was forwarded to Memphis. What would this world be without women? In every noble act, in every charitable enterprise, they are foremost. These young ladies but betrayed their kindness of heart and sympathetic natures, when they took upon themselves the task of mercy in ministering, in the only way possible for them, to the wants of stranger sufferers in a far away land. In addition to the collections made by the young ladies, Col. Holt himself donated thirty sacks of flour, which is but in keeping with his acts of public charity.

Ferris' Pig Hams.

A nice lot of Ferris' Hams, light weights, just received. These are the best hams sold in this State. All lovers of good hams will do well to call and see us. Adams & Bingham. *

Death of a Presbyterian Divine.

The Charlotte Observer says that the Rev. Archibald Baker, a prominent Presbyterian minister, long the pastor of that church at Salisbury, died at Floral College, Robeson county, on Wednesday. He had been for several years President of Floral College, a female school of high grade, and was a Christian gentleman, revered by all those within the circle of his acquaintance. His many friends throughout the length and breadth of the State will receive with sincere sorrow the intelligence of his death. Mr. Baker was about sixty years of age.

Mayor's Court.

The trial of F. M. Sorrell and John Doran, for the shooting affair on Fayetteville street, Wednesday afternoon, was held before Mayor Manly yesterday morning. The parties concerned in the affair were both represented by counsel. They waived an examination, and were held in justified bonds of $100 each, to appear at the next term of the Criminal Court.

Minnie Gray, colored, was up on a charge of having been drunk and disorderly on the streets. She was sent to the guard house for 24 hours.

Warrants were issued for two colored women, who donned men's clothes and made their appearance on the streets.

Another Lincoln Anecdote.

Owing to the very inferior quality of the metal used as a base for plating, several years ago, many people preferred paying the invariably high, and frequently exhorbitant prices then demanded for sterling silver spoons, forks, etc. But of late years many improvements have been made, not only as a material for the base, but in the amount of silver applied. TRIPLE PLATED Casters, Forks, Spoons, Ice Pitchers, Pickle Casters, Butter Dishes, and many other articles suitable for bridal presents, etc., can now be bought at Law's China and Silver House at lower prices for BEST GOODS than ever before. *

It Might Have Been.

When taking a retrospection of our past lives, how often does conscience whisper to broken spirits and wounded hearts the sad, sad words, "It might have been?" Thus it may be with the sufferer who endures the agonies of hemorrhoids, or piles, and heeds not the counsel to try Barham's Infallible Pile Cure, which is warranted to speedily and permanently cure this distressing disease. Growth of Wheat.

Below is given a letter from one of the best farmers in this county or the State:

WAKE FOREST COLLEGE, Sept. 20.

Messrs. Kelley, Purefoy & Brewer, GENTLEMEN:—In reply to your inquiry as to the effects of "Long's Prepared Chemicals" for wheat, I would state that I sowed a ten acre cotton lot in wheat last December, using the "chemicals" in conjunction with cotton seed as a fertilizer. The yield was 150½ bushels of wheat of excellent quality. The season here, as elsewhere in the State, was a very unfavorable one for wheat. Had the season been favorable I have no doubt but the yield would have been much greater. The wheat was sown the week before Christmas, rather late for the best results. I think much of the yield is to be attributed to the "Chemicals." I regard them an excellent fertilizer.

Yours truly,
P. H. MANGUM.

The firm above named keep full supplies of this valuable fertilizer, which they can furnish promptly at any point on the R. & G. Railway. *

Sure of Success.

One of the most varied and best selected stocks of dry goods, groceries, boots, shoes, &c., is to be found at the new store of W. E. Dupree, in the Adams building, Martin street. A young man of enterprise and energy, he is determined to give customers good bargains. *

A Word of Warning to Counterfeiters.

The wide-spread fame of Hostetter's Stomach Bitters causes a necessity on our part to remind, from time to time, whom it may concern, of the fact that imitating said article is a punishable offence, and we now give this word of caution, that we will most assuredly have all those persons engaged in refilling our second-hand bottles selling by the gallon or barrel, or in any manner whatsoever palming off on the public a spurious article purporting to be our preparation, punished to the full extent of the law. Penalty for counterfeiting, or dealing in counterfeit trade mark goods, as set forth in a law recently passed by Congress: "Fine not exceeding $1,000, or imprisonment not more than two years, or both such fine and imprisonment." We never fail to convict.

NOTICE TO DEALERS AND PURCHASERS.—Hostetter's Bitters are never, under any circumstances, sold in bulk, BUT ALWAYS IN BOTTLES, with a finely engraved U. S. Internal Revenue (special proprietary) Stamp covering the cork of each bottle, fastened to both sides of the neck of same. All Bitters purporting to be Hostetter's, without this stamp, are counterfeit. HOSTETTER & SMITH.

Pleasant to the taste and surprisingly quick in relieving cough and colds, it is not at all strange that Dr. Bull's Cough Syrup has displaced so many other cough remedies.

An old physician, retired from practice, had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy, for the speedy and permanent cure of consumption, bronchitis, catarrh, asthma, and all throat and lung affections, also a positive radical cure for nervous debility and all nervous complaints, after having tested its wonderful curative powers in thousands of cases, has felt his duty to make it known to his suffering fellows Actuated by this motive, I will send free of charge, to all who desire it, this recipe, with full directions for preparing and using, in German, French or English. Sent by addressing with stamp, naming this paper. W. W Sherar, 149 Powers Block, Rochester N Y.

JONES' BAKING POWDER

FOR SALE BY ALL GROCERS.

We ask all cooks, housewives, and the general public to give our goods an impartial trial. This Powder is carefully prepared upon scientific principles—the result of long and careful experiments and tests in chemistry. In its proportions and compounding, it is the perfection of science, and is recommended by the leading Chemists in the United States, whose certificates we have. It is perfectly pure and wholesome, and saves time, labor and money of every consumer. It stands Unrivaled; we challenge the world to produce better pure and more wholesome goods.

REASONS WHY IT SHOULD BE USED:

A BARREL OF FLOUR MAKES ABOUT 40 POUNDS MORE BREAD.
IT NEVER FAILS AND ALWAYS PLEASES THE CONSUMER.
IT IS THE PERFECTION OF SCIENCE IN COOKERY.
IT IS A COMFORT FOR EVERY HOME.
YOUR BREAD WILL NEVER BE SOUR.
YOUR FOOD WILL BE THE BEST.
YOUR BREAD WILL BE WHITER AND RICHER.
YOUR HEALTH WILL BE PRESERVED BY ITS PURITY.

WARRANTED TO KEEP IN ANY CLIMATE

We do most earnestly caution consumers of Baking Powder against using adulterate and cheap goods, as no good and pure Baking Powder can be sold for less than ours.

An analysis of the cheap clap-trap spurious adulterated goods called Baking Powder, would startle the community of consumers beyond precedence, as most of it is not fit for use, and would not be allowed to be sold were the laws enforced; yet goods of this kind are manufactured and sold by dealers because offered cheap by unscrupulous manufacturers. We caution those who value health, and appreciate good, wholesome living to buy only Pure Baking Powder. Jones' Unrivaled is such. It is an established article throughout the West and South, and is recommended by the highest authority for Purity and Strength.

All first-class storekeepers have it because it is pure and can be relied upon, and is a credit to their stock.

Merchants are authorized to warrant our goods where directions are followed.

Our statements are correct and are backed by chemists of note and experience, and we hold ourselves ready to prove our assertions.

We are offering goods of undoubted purity, which are in their compounding, as we claim "UNRIVALED."
